

PRESENTATION OF PEGGED GOODS

Special solutions for specific needs

Our expertise in price and product presentation systems and plastic materials allows us to offer a very wide range of solutions for pegged goods. In addition to the merchandising and anti-sweep concepts presented in Part I of this catalogue you will find several standard solutions for label holders on the following pages.

Individual requests

Many of these solutions can also be manufactured in special lengths and sizes, as well as screen printed according to individual requests.

i FACTS

The Benefits

Accessories for every situation using hooks.

In the Pinpac range there are solutions for 10 different label heights.

The Pinpac product protects your labels from dirt and wear.

All Pinpac products enable easy changing of price labels.
